

SARAFRAJ NAVAZ

Java Developer

sarafrajinavaz.hmfa@gmail.com | +91 76178 09982 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Bhadohi, Uttar Pradesh, India (Open to Relocate)

PROFESSIONAL SUMMARY

Java Developer specializing in Spring Boot, Hibernate, and REST API development, backed by a JSpiders full-stack certification (Core Java, J2EE, MySQL). During a planned 2023-2025 career break, solved 200+ LeetCode problems and independently shipped four production full-stack applications. Strong in MVC design, RBAC, and SQL-driven backend systems. Immediately available.

TECHNICAL SKILLS

Languages	Core Java, SQL, JavaScript, HTML5, CSS3
Frameworks	Spring Boot, Spring MVC, Hibernate, JPA, J2EE, Servlets, JSP
Databases	MySQL, JDBC
Concepts	OOP, MVC Architecture, RESTful Web Services, Microservices, Data Structures & Algorithms
Tools	Git, Eclipse, Agile/Scrum, RBAC, Session-Based Authentication, Vercel, GitHub Pages

PROJECTS

Sachin Chaudhary — Therapist Profile Website — *HTML5, CSS3, JavaScript, Web3Forms, Vercel, Custom Domain (DNS/SSL)* [Live Site](#)

- Built and shipped a responsive, dark/light-theme therapist profile website with an integrated contact form (Web3Forms), deployed via GitHub → Vercel with a custom domain.
- Configured end-to-end production infrastructure: GitHub repository, Vercel deployment pipeline, DNS records (A/CNAME) on GoDaddy, and diagnosed and resolved an SSL certificate issuance failure for the apex domain to achieve a fully secured (HTTPS) live production site.

J-Cart — Carpets and Rugs Marketplace — *Java, JDBC, Servlet, JSP, MySQL, HTML, CSS, JavaScript* [Live Demo](#)

- Built and deployed a multi-role e-commerce platform (Admin, Product Owner, Buyer) with product verification, inventory management, and a WhatsApp-integrated ordering flow.
- Reduced manual product-verification effort by 60% by designing and automating the end-to-end owner-verification workflow.
- Implemented role-based access control (RBAC) with session-based authentication filters across all three user roles.
- Designed a responsive, animated user interface with a custom design system and 3D hover interactions; deployed and maintained the live production build on Render.

Personal Portfolio Website — *HTML5, CSS3, JavaScript* [Live Site](#)

- Built a responsive portfolio website with dark and light theme toggle and smooth navigation; achieved a 98% Google Lighthouse performance score.

Sister Wedding Website — *HTML5, CSS3, JavaScript* [Live Site](#)

- Designed a responsive event website with photo gallery, RSVP form, and countdown timer; attracted 500+ visitors and 40+ RSVPs.

Employee Management System — *Java, Servlet, JDBC, MySQL, HTML, CSS* 2023

- Developed a full CRUD web application for employee records with server-side validation and clean MVC architecture.
- Reliably handled 500+ records with 99.9% data integrity through strict input validation and SQL constraints.

PROFESSIONAL TRAINING

Full Stack Development Training & Internship — JSpiders 2022 – 2023

- Completed an industry-ready program covering Core Java, J2EE, Spring Boot, Hibernate, MySQL, and REST API development.
- Gained live-project experience simulating real-world Agile development workflows and code reviews.

EDUCATION

HMFA Memorial Institute of Engineering and Technology, Prayagraj 2018 – 2022

Bachelor of Technology in Computer Science and Engineering — 74% (Dr. A.P.J. Abdul Kalam Technical University)

CERTIFICATIONS & ACHIEVEMENTS

- Java Full Stack Certification — JSpiders (2023)
- Java Programming Masterclass — Udemy (In Progress)
- 2nd Prize, Inter-College Coding Competition, 200+ participants (2019–20)
- Solved 200+ LeetCode problems covering arrays, trees, graphs, and dynamic programming
